Opensource Visualization Developer (ReactS+D3)

We are looking for a Front-End Web Developer who is motivated to combine the art of design with the art of programming and experience in D3+React JS combination. Responsibilities will include translation of the UI/UX design wireframes to actual code that will produce visual elements of the application. You will work with the UI/UX designer and bridge the gap between graphical design and technical implementation, taking an active role on both sides and defining how the application looks as well as how it works.

Joining - Immediate Joiners to 30 days Max

ReactJS, Redux, D3.js, JavaScript, HTML, CSS, SASS/LESS, Material Design
