### High School Certificate

2016

Govt Boys Higher Secondary School, Khedi  
88.66%

## 💡 PROJECTS

### Hospital Management System

It is a Web application using Advance Java (JSP and Servlet). Here Admin , User and Doctor has there different functions. I use MySQL database connectivity for Data Store and Apache Tomcat server. I provide user friendly interface in application.

### Disease Detection System

It is a Machine Learning project where I used Python and there different Libraries.In these project I used different Machine Learning algorithms for predicting the disease.

### Hospital Management System

It is a Desktop application which provides easy interface for hospital management. Here I used core java (jframes and Awt) and MySQL for database connectivity.
