EDUCATION

Sharda University, Greater Noida Campus

Bachelor of Engineering in Computer Science and Engineering, GPA: 8.3/10.0

Aug 2018 - May 2022

Greater Noida, India

TECHNICAL SKILLS

Languages: C#, JavaScript, Python

Technologies/Frameworks: ReactJS, SQL, MongoDB, Bootstrap, ASP.net, NodeJS, GCP, Git, GitHub,

Relevant Courses: Web Development, Object Oriented Programming, Operating Systems

PROFESSIONAL EXPERIENCE

GeeksForGeeks

MERN Stack Intern

April 2024 - July 2024

Noida, India

As a **MERN Stack Intern**, I developed a fully functional e-commerce website utilizing the MERN stack, encompassing React.js for dynamic front-end interfaces, Node.js and Express.js for server-side logic, and MongoDB for efficient data storage and retrieval.

- This experience allowed me to gain a solid understanding of full-stack development, enhancing my skills in creating scalable and maintainable web applications.
- I honed my ability to work with modern JavaScript frameworks and tools, laying a strong foundation in MERN technologies and best practices.

Nagarro Private Ltd.

Associate Software Engineer

Jul 2022 - Sept 2023

Gurgaon, India

Experienced **.NET Developer** with a strong background in designing, developing, and maintaining robust **web applications** and **APIs**. Proficient in utilizing the **.NET framework**, including **C#** and **ASP.NET**, to build scalable and high-performance solutions.

- Expertise in front-end technologies like **HTML, CSS, JavaScript, and React.js**, combined with a solid understanding of Bootstrap for creating **responsive and user-friendly interfaces**.
- Demonstrates a comprehensive understanding of full-stack development, enabling smooth integration between client-side and server-side components.
- Adept at collaborating with cross-functional teams, troubleshooting complex issues, and optimizing code to enhance application efficiency.
- Committed to staying current with industry trends and continuously improving development processes.

PROJECTS

E-commerce Website (GeeksForGeeks Internship)

- Developed an e-commerce website enabling users to purchase daily essentials. The front-end was built using **VITE and Tailwind CSS**, with **React.js** providing dynamic functionality through **hooks and components**.
- The backend was powered by **Node.js** and **MongoDB**, ensuring a scalable and efficient platform.
- This web app became the primary source for Associate projects, playing an integral role for promotions

Reimbursement Portal (Nagarro Private Ltd.)

- Developed an employee-friendly reimbursement portal for a leading global Consulting firm.
- Using Angular, Asp.Net, SQL, and JSON server.
- This web app became the primary source for Associate projects, playing an integral role for promotions
